1. Introduction

The purpose of this document is to assist you, the user, in launching an app through the SSO.

2. Prerequisites

To launch an app, you'll need to be logged in to a valid, existing user account.

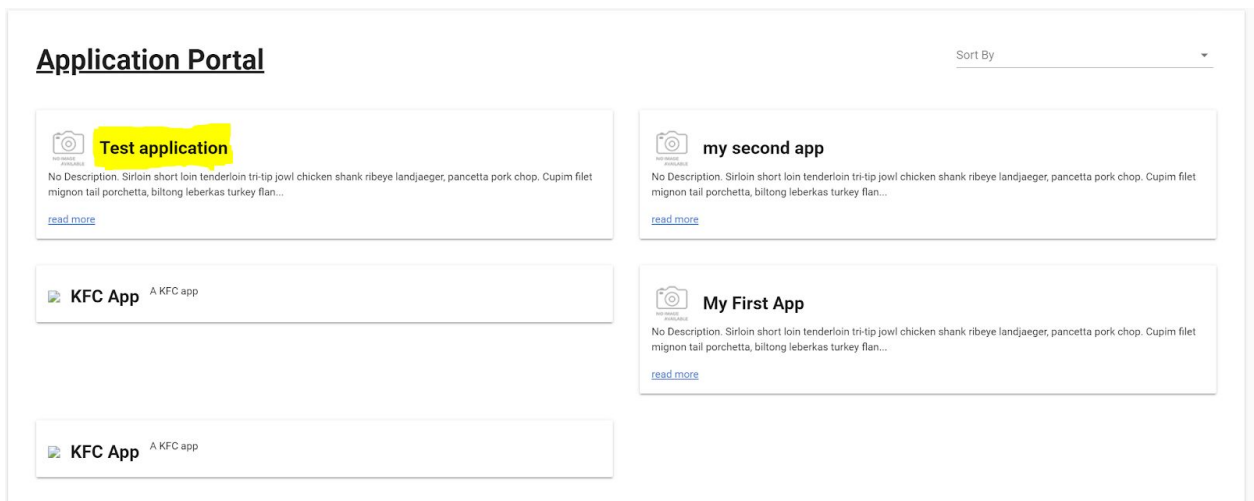

3. Launching an App

Launch an app:

1. Open the SSO
2. Use the navbar at the top of the site to navigate to the “Home” page, otherwise referenced as the “Application Portal” or “Dashboard”

3. Click on the **title** of an application on the dashboard

4. A new tab will open with the desired application. Depending on the application, you may need to perform extra setup steps or enter additional information to complete your registration.
